Cabinet Glass Wash

Our detergent is suitable for a wide range of cabinet glass wash machines. It removes beverage residue, grease marks and bacteria from glassware and equipment typically found in pubs, clubs, cafes, restaurants and kitchens.

Benefits

- ✓ Inhibits limescale build-up
- ✓ Free from: Enzymes, Chlorine Bleaches, Formaldehyde, VOCs, APEs
- ✓ Effective at various machine temperatures
- ✓ Doesn't form white deposits during long term use
- ✓ Low foaming
- ✓ effective in hard and soft water
- ✓ Reduced use of hazardous substances
- ✓ Phosphate and phosphonate free
- ✓ Safe in septic tanks if used as directed
- ✓ Readily biodegradable
- ✓ Not tested on animals

Application and Directions

Remove any residue and rinse heavily soiled items before loading wash machine. Concentration will depend upon the degree of soiling and hardness of water. Normally 0.1% - 0.5% is satisfactory.

More effective cleaning will be achieved at higher temperatures; the ideal being 60°C. The results can be enhanced by the use of Delphis Eco Rinse Aid.

NB. Do not use to clean aluminium, lead crystal and hand painted china.

Proper dosage saves cost and minimises environmental impact: Delphis Eco encourage proper dosage and users to reduce waste going to land fill by recycling empty bottles.

Areas of Usage

- Cabinet glass washers
- Glassware
- Associated equipment

Technical Data

Figures are typical values and should not be used as specifications

Appearance:	Liquid
Colour:	Colourless
Odour:	Barely perceptible odour
Solubility in water:	Soluble
Boiling point/range°C:	100
Relative density:	1.090 typical
pH:	13.0
