

Craftex Product Specification Sheet

CARPET PROTECTOR CONCENTRATE

A high-quality, water based, fluorochemical with excellent water and oil repellent characteristics, designed for use on carpets, upholstery and fabrics that can be wet cleaned.

Contains Dupont Teflon®. Low in toxicity - does not affect rubber, bitumen or latex backings. Where water cannot be applied to a fibre, use Craftex Fabric Protector (0031) which is a solvent based protector.

PRECAUTIONS FOR USE

Always pretest for any colour or texture change before application. Do not allow product to freeze. Flush equipment clean after use. Do not breathe spray. Use in well ventilated area and use suitable gloves and eye/face protection. Use common sense precautions when handling chemicals. Avoid contact with skin. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Keep out of reach of children.

DIRECTIONS

Dilute 1L 0032 with 4L water. Carpets must be thoroughly vacuumed and cleaned with Craftex Top Grade Powder (0008) using 'water extraction' method and then rinsed with Craftex Fibre Fresh Rinse (0029). Apply evenly through a sprayer at approx. 35-40 psi. Allow an average coverage of 25-35 sq. metres per 5 litres of protector. Brush with pile brush and place furniture on foil protectors. Leave carpet to dry before use. Deep pile carpets will need two applications. Wipe overspray from other surfaces.

CLASSIFICATION

Aqueous solution of fluorochemicals. pH 5 to 6.

Size: 5L
Product Code: 0032
