

RENEW TD

POLYMER FLOOR MAINTAINER

- **Outstanding gloss finish**
- **Repairs scratched, marked and worn areas**
- **Excellent cleaning results**

USES

Renew TD is a floor maintainer that recoats and repairs floors to leave a flexible, slip resistant finish. Keeps floors at the peak of their appearance and restores those that are losing their shine.

The fragrant, low viscosity, opaque, rose-coloured liquid can either be applied with a mop and left to dry or used through spray cleaning equipment.

Suitable for use on marble, terrazzo, linoleum, vinyl, rubber, tiles, stone, sealed wood and sealed cork.

DIRECTIONS

Shake before use and dilute according to the job. Always brush floor to remove loose debris prior to application. Clean heavily soiled floors with ACTIV F prior to application.

SPRAY CLEANING/BURNISHING - Spray RENEW TD solution onto the immediate floor area. Allow a few seconds contact time and burnish the floor dry.

DAMP MOPPING - Apply RENEW TD solution using a mop, agitate and remove any excess liquid. Allow the floor to dry. Machine burnish for a high gloss.
