

Craftex Product Specification Sheet

TRAFFIC LANE CLEANER - HIGH pH

A powerful, concentrated pre-spray for heavily soiled carpets prior to extraction cleaning, with minimal foaming.

The high pH value gives that extra 'bite' into grease and dirt build up, especially on synthetic carpets. When cleaning white or pale coloured carpets use Craftex Traffic Lane Cleaner - pH 7 (0022).

PRECAUTIONS FOR USE

Test for colour fastness. Wipe off polished surfaces immediately. Use common sense precautions when handling chemicals. Avoid contact with skin. Wash chemicals from eyes and skin immediately with plenty of water, if ingested drink plenty of milk or water, seek medical advice. Keep all products out of reach of children.

DIRECTIONS

Dilute 50ml 0023 per litre of water, (hot water is better). For heavily soiled carpets use more concentrated. Spray onto carpets or fabrics and leave for up to 20 minutes to penetrate, then extract using the 'water extraction' method with Craftex Top Grade Powder (0008). On delicate fibres such as pale coloured wool fibres, use Craftex Fibre Fresh Rinse (0029) to bring the pH Level to neutral.

CLASSIFICATION

Aqueous-organic solution. Non-ionic.
pH 11.5 to 12.5

Size: 5L
Product Code: 0023
